

Dock Cleats

Aluminum "S" Cleats

- High quality cast aluminum - Alloy 356.
- Large "footprint" for maximum holding strength.
- Fully guaranteed against breakage.
- Corrosion resistant - no ugly stains.
- Four sizes available (10", 12", 15", 18") for different size vessels.
- Can be mounted vertically or horizontally.
- Smooth finish eliminates line chaffing.
- Ideal for private docks and marinas where appearance and effectiveness are important.
- Powder-coating available.
