 5SLR .... 5 Step w/Removable Handle\*  
 6SLR .... 6 Step w/Removable Handle\*  
 7SLR .... 7 Step w/Removable Handle\*

\* Can be shipped FedEx Ground

### FEATURES

- All ladders are made of high quality 6063 marine grade aluminum, and TIG welded for superior strength and rigidity.
- Ideal for use as a safety ladder. Some municipalities require a safety ladder for every 50' of dock.
- Ladder rung is notched into vertical side rail for added safety. In the unlikely event of a weld failing, the ladder rungs are still fully captured.
- Grooved ladder rungs allow for extra traction and water run-off.
- 3 & 4 step ladders can be sent FedEx Ground. 5, 6, & 7 step ladders are sent freight.
- Shipping ladders have removable handles for shipping via FedEx Ground. 3 thru 7 step ladders can be shipped this way.
- Each step will equal approximately 1 foot down from the top on the mounting surface (i.e. 5 step ladder = 5' down from deck).
- Custom designs, widths, and lengths available upon request.

## Vertical Lift Ladders

This is the ultimate in dock ladders. It can be raised straight up or down so you can clear the water each time you finish using it. This design has proven to be reliable for over 20 years. The fixed portion of the ladder extends 24" below the dock. The sliding ladder portion equates to approximately 1 foot per step, so a 5 step ladder extends 5' below the dock. The Lift Ladder comes in four styles:

**Regular Hoop** - hoop handle extends 15-1/2" onto the dock

**Short Hoop** - hoop handle extends 12-1/2" onto the dock

**Finger Pier** - mounting bracket extends 4-1/2" onto the dock, handles are vertical and straight

**Floating Dock** - same as Regular Hoop, except the fixed portion extends only 15" below dock.

All ladders are made of marine grade 6063 aluminum. The spacing between the vertical handles is 18 1/2". These ladders have been load-tested in excess of 500 pounds.

### ORDER CODES

**3LL** - 3 Step Lift Ladder\*

**4LL** - 4 Step Lift Ladder\*

**5LL** - 5 Step Lift Ladder\*

**6LL** - 6 Step Lift Ladder\*

**7LL** - 7 Step Lift Ladder\*

**8LL** - 8 Step Lift Ladder\*

**3FPLL** - 3 Step Finger-Pier Lift

**4FPLL** - 4 Step Finger-Pier Lift

**5FPLL** - 5 Step Finger-Pier Lift

**6FPLL** - 6 Step Finger-Pier Lift

**7FPLL** - 7 Step Finger-Pier Lift

**8FPLL** - 8 Step Finger-Pier Lift

**3FDLL** - 3 Step Floating Dock Lift

**4FDLL** - 4 Step Floating Dock Lift

**5FDLL** - 5 Step Floating Dock Lift

**6FDLL** - 6 Step Floating Dock Lift

**7FDLL** - 7 Step Floating Dock Lift

**8FDLL** - 8 Step Floating Dock Lift

\* Please specify Regular or Short Hoop when ordering the Lift Ladder.

## Specialty Dock Ladders

**Powder Coating** is available. Standard colors are white and blue. Custom colors are available upon request. The ladder shown is a 5 Step Lift Ladder.

**Shipping Ladders** available from 3 to 7 step. Allows removal of lower portion for storage or cleaning. Fasteners are 316 stainless steel. Shipped UPS or FedEx Ground.

**Double-Handle Ladders** are available for added strength and sturdiness, plus a 6" wide step. Ladder sizes range from 3 to 14 steps.

**Swing Ladder** for use on dock or swim platform.

**Custom Ladders** can be fabricated. Quotes will be given after receipt of scaled drawing and a list of any specifications or requirements.
